

Seat **CONCERTO LOGE**

The CONCERTO LOGE model is a gravity-based automatic tip-up seat. The side panel of the seat is made of cast aluminum with a customizable finish. The seat and backrest are made of cold-molded polyurethane and feature an internal galvanized steel frame to ensure strength and durability. Upholstery options include fabric, eco-leather, or other certified materials, with the possibility of customization through embroidered logos or sponsor branding. Stitching can be tone-on-tone or contrasting, based on preference.

The CONCERTO LOGE chair complies with FIFA/UEFA requirements and European standards EN 13200-1-4. It has been tested in accordance with EN 12727:2017 (level 4 – severe) and is fire-retardant according to current regulations, with UV resistance provided by specific additives.

Seat numbering is displayed on an aluminum tag positioned on the top of the side panel, ensuring visibility even when the venue is nearly full.
