

Seat **MONACO**

The MONACO model is an upholstered tip-up seat, characterized by simple lines and optimal comfort. With a maximum depth of 16 cm when closed, the seat surface folds up automatically. It features a dynamic backrest and can be installed on a beam (console) or directly on the floor. It is also available in the MONACO WOOD version, with wooden armrests and rear covers.

The seat complies with FIFA/UEFA recommendations and European standards EN 13200 parts 1–4, as well as with EN 12727:2017, level 4 – severe use. The padding is made of flame-retardant polyurethane, while the upholstery can be either flame-retardant fabric or eco-leather, in accordance with current regulations. The frame is made of polyester-coated steel tubing. The seat is pre-configured for the addition of an anti-panic folding tablet.

Discover the MONACO model, an upholstered tip-up seat with a simple and comfortable design, ideal for limited spaces. Customizable with flame-retardant coverings and available in the MONACO WOOD version.
